TABLE OF CONTENTS

to Volume 70, January–April 1972

AYALA, FRANCISCO J., JEFFREY R. POWELL, MARTIN L. TRACEY, CELSO A. MOURÃO and SANTIAGO PÉREZ-SALAS, Enzyme variability in the *Drosophila willistoni* group. IV. Genic variation in natural populations of *Drosophila willistoni* 113–139

BROWNELL, GEORGE H. and RICHARD S. WALSH, III, Colony mutants of compatible nocardiae displaying variations in recombining capacity 341–351

BRUCE, VICTOR G., Mutants of the biological clock in *Chlamydomonas reinhardi* 537–548

CARLSON, ELOF A., H. J. Muller 1–30

CHAPCO, WILLIAM, The location of viability genes within a testcross framework 319–330

CHAPMAN, VERNE M. and FRANK H. RUDDLE, Glutamate oxaloacetate transaminase (GOT) genetics in the mouse: Polymorphism of GOT-1 299–305

CHU, YAW-EN and HIKO-ICHI OKA, The distribution and effects of genes causing F_1 weakness in *Oryza breviligulata* and *O. glaberrima* 163–173

CRAIG, E., Synthesis of specific, stabilized messenger RNA when translocation is blocked in *Escherichia coli* 331–336

EGASHIRA, TAKESHI and KAZUO NAKAMURA, Genes influencing selective fertilization in *Neurospora crassa* 511–519

FRANCIS, J. C. and P. E. HANSCHE, Directed evolution of metabolic pathways in microbial populations. I. Modification of the acid phosphatase pH optimum in *S. cerevisiae* 59–73

GRASS, FRANK S., Genetics of the St Serotype system in *Tetrahymena pyriformis*, Syngen 1 521–536

GREEN, D. MACDONALD and MARGERET I. URBAN, Recombination and transfection mapping of cistron 5 of bacteriophage SP82G 187–203

GUNGE, NORIO and YASUO NAKATOMI, Genetic mechanisms of rare matings of the yeast *Saccharomyces cerevisiae* heterozygous for mating type 41–58

HASUNUMA, KOHJI and TATSUO ISHIKAWA, Properties of two nuclease genes in *Neurospora crassa* 371–384

IMMKEN, LADONNA and DAVID APIRION, Site of action of 3′, 5′-cyclic adenosine monophosphate in production of tryptophanase in *Escherichia coli* 175–180

JONES, ELIZABETH W., Fine structure analysis of the *ade3* locus in *Saccharomyces cerevisiae* 233–250

KANEY ANTHONY R. and K. C. ATWOOD, Incompatibility of integrated sex factors in double male strains of *Escherichia coli* 31–39

KIDWELL, MARGARET GALE, Genetic change of recombination value in *Drosophila melanogaster*. I. Artificial selection for high and low recombination and some properties of recombination-modifying genes 419–432

KIDWELL, MARGARET GALE, Genetic change of recombination value in *Drosophila melanogaster*. II. Simulated natural selection 433–443

LATTER, B. D. H., Selection in finite populations with multiple alleles. III. Genetic divergence with centripetal selection and mutation 475–490

MAGUIRE, MARJORIE P., The temporal sequence of synaptic initiation, crossing over and synaptic completion 353–370

MANN, STANLEY J. and WILLIAM E. STRAILE, Inheritance of hair constrictions in mice 631–637

MARUYAMA, TAKEO, Rate of decrease of genetic variability in a two-dimensional continuous population of finite size 639–651

MERRELL, DAVID J., Laboratory studies bearing on pigment pattern polymorphisms in wild populations of *Rana pipiens* 141–161

MIKLOS, GEORGE L. GABOR, An investigation of the components of *segregation-distorter* systems in *Drosophila melanogaster* 405–418

MINAMORI, SUMIO and KAZUKO ITO, Extrachromosomal element delta in *Drosophila melanogaster*. VII. Relation to fertility in a second chromosome line 549–556

MINAMORI, SUMIO, Extrachromosomal element delta in *Drosophila melanogaster*. VIII. Inseparable association with sensitive second chromosome 557–566

MOORE, CAROL W. and ROY G. CREECH, Genetic fine structure analysis of the *Amylose-extender* locus in *Zea mays* L. 611–619

MOORE, CHARLEEN M. and RHODA F. GRELL, Factors affecting recognition and disjunction of chromosomes at distributive pairing in female *Drosophila melanogaster*. I. Total length *vs.* arm length 567–581

MOORE, CHARLEEN M. and RHODA F. GRELL, Factors affecting recognition and disjunction of chromosomes at distributive pairing in female *Drosophila melanogaster*. II. The effect of a second arm 583–593
MOREE, RAY, The effects of heterozygosity changes on viability in *Drosophila melanogaster* 595–610
NEGROTTI, T. and R. NAGEL DE ZWAIG, Interactions between colicinogenic factor B and F-type factors: Isolation of a mutant F-*lac* factor insensitive to the effect of colicinogenic factor B 205–213
RICHMOND, ROLLIN C., Enzyme variability in the *Drosophila willistoni* group. III. Amounts of variability in the superspecies, *D. paulistorum* 87–112
ROSENBLUTH, RAJA, DEAN EZELL and DAVID T. SUZUKI, Temperature-sensitive mutations in *Drosophila melanogaster*. IX. Dominant cold-sensitive lethals on the autosomes 75–86
SABOUR, MOHAMMAD, RNA synthesis and heterochromatization in early development of a mealybug 291–298
SANDLER, L., On the genetic control of genes located in the sex-chromosome heterochromatin of *Drosophila melanogaster* 261–274
SCHRÖDER, JOHANNES HORST and SEBASTIAN HOLZBERG, Population genetics of *Lebistes (Poecilia) reticulatus* Peters (Poeciliidae; Pisces). I. Effects of radiation-induced mutations on the segregation ratio in postirradiation F_2 621–630
SEALE, THOMAS W., Super-suppressors in *Neurospora crassa* I. Induction, genetic localization and relationship to a missense suppressor 385–396
STALKER, HARRISON D., Intergroup phylogenies in Drosophila as determined by comparisons of salivary banding patterns 457–474
STODOLSKY, M., M. ENGEL RAE and E. MULLENBACH, The addition of *lac*+ chromosome fragments to the *E. coli proA-proB-lac deletion* XIII chromosome 495–510
THOMPSON, PETER E. and JEAN S. BOWEN, Interactions of differentiated primary sex factors in *Chironomus tentans* 491–493
THOMPSON, PETER and GORDHAN PATEL, Compensatory regulation of two closely related hemoglobin loci in *Chironomus tentans* 275–290
TOBARI, YOSHIKO N. and KEN-ICHI KOJIMA, A study of spontaneous mutation rates at ten loci detectable by starch gel electrophoresis in *Drosophila melanogaster* 397–403
WHEAT, THOMAS E., GREGORY S. WHITT and WILLIAM F. CHILDERS, Linkage relationships between the homologous malate dehydrogenase loci in teleosts 337–340
WHITE, J. M., Inbreeding effects upon growth and maternal ability in laboratory mice 307–317
WILSON, JEROME, Experimentally determined, two locus fitnesses of *Drosophila melanogaster* males 445–455
WOODWARD, JOHN, EDNA KANESHIRO and MARTIN A. GOROVSKY, Cytochemical studies on the problem of macronuclear subnuclei in Tetrahymena 251–260
WOOL, DAVID, A critical examination of the use of the Jolicoeur-Brunel diagrams to demonstrate selection in biological populations 181–185
ZYSKIND, J. WEAVER and P. A. PATTEE, Density transfer studies of DNA isolated from *Bacillus subtilis* after exposure to phenethyl alcohol 215–232
